BID SHEET INSTRUCTIONS

BIDDER: _____

INSTRUCTIONS FOR COMPLETION OF BID SHEETS:

1. Preferred brands and product numbers are listed next to the item descriptions on the bid sheets. If bidder is quoting the exact brand and code number listed, circle the brand and code number. If a different brand or code is bid, provide that information in the "Proposed Alternate Brand/Pack Size" column. For all different brands and/or codes, the bidder must provide specifications documenting that the quality is equal to or better than the one specified.
2. When bidding commodity processed items, list the gross price of each item before commodity allowance in the top box in the gross price column. In the box below the gross price, list the current commodity "net off invoice" value for each item. In the far-right column, list the net commodity price quoted for each item. Bidder must clearly indicate on the bid sheets if any commodity allowances are to be issued to the District in the form of a rebate or if any items are bid using a fee-for-service method. The District has scheduled USDA foods for the 2022-23 school year to be directed to the processors listed. Alternate brands may only be considered with verification that sufficient quantities of the required USDA donated commodities are available at the proposed manufacturers to meet the bid quantities stated.
3. When packaging is different than the pack size specified, cross out the pack size shown and write the pack size of the product being quoted in the "Proposed Alternate Brand/Pack Size Column."
4. If any item is considered a special order, the amount of lead time required for the bidder to deliver this item must be clearly stated in the "Proposed Alternate Brand/Pack Size" column.
5. Write the words "No Bid" in the "Unit Price" column for any item that is not being quoted. If bidder is not bidding on an entire section, the bidder may write the words "No Bid on Entire Section" on the first line of the "Proposed Alternate Brand/Pack Size" column.
6. Since the prices will be analyzed by line item, it is not necessary to extend totals.
